RETAINED SERVICES:

HEALTH AND SAFETY MANAGEMENT

Are you confident that you are compliant with the requirements of the current Health & Safety Legislation that affects your business?

- If the Health & Safety Executive visited your site, are you confident in your safety procedures?
- Would you like to employ a Health & Safety Officer but don't want to take on more staff?
- Would you like to leave some of the operational Health & Safety issues to a qualified expert so you can focus on your core business?

WHY CHOOSE US?

National Safety Training Services (NSTS) offer an innovative and cost effective way to ensure that your business meets its Health & Safety obligations. Four levels of service are available to choose from ensuring you have the right level of support for your business.

Our unique levels of support include a 'menu' of additional services that you can select or remove from one year to the next, ensuring you keep monthly payments at an affordable level. Your package can be tailored to ensure you get everything you need for a fixed cost. The levels of support listed, and the specification of services can be amended to suit your particular business needs.

Please give us a call on **01482 644855** and ask to speak to one of our

consultants about a free site visit to discuss your exact needs.

A COMPREHENSIVE MANAGED BUSINESS SOLUTION:

This level of support is ideal for any organisation that requires a full Health & Safety management service. Generally medium or larger businesses with multiple sites or a single site with a mobile workforce. Companies in this category would carry out medium or high risk work activities.

This is an unstructured intervention designed for you in consultation with your dedicated consultant. An initial meeting will determine the exact scope of the service required for your business. This service is typically for organisations who wish to have the dedicated services of a Health & Safety Consultant to run all aspects of their safety management system, effectively acting as your Health & Safety Manager, but without the need to employ a dedicated person within your company.

WHAT IS INCLUDED?

You can include a range of services, popular examples are...

- Monthly full day visits to your main or satellite sites

- Provision of services (audits, risk assessments, training needs analysis, training, chairing meetings etc).
- Act as your competent person for all Health & Safety matters in the event of a HSE/LA visit
- Unlimited email access to your dedicated consultant
- Unlimited phone access to your dedicated consultant

HOW MUCH WILL IT COST?

This will depend on the service that you design, typically these types of service will range from £500 to £1000 per month, still very affordable when compared with employing a Health & Safety manager with the experience & qualifications you will get from us.

ADDITIONAL SERVICES

Please refer to page 6 for our menu of additional services so that you can tailor you scheme to your exact needs.

If you don't see what you're looking for please ask us and we will do our very best to accommodate your requirements.

MENU OF ADDITIONAL SERVICES:

These are the “bolt on” additional services that you can add to your scheme. This means which ever level of scheme you enter, you can tailor it to give you what you need, knowing that you won't get any unplanned or unexpected invoices for services we provide.

Again, this is not an exhaustive list and your consultant will be pleased to discuss other needs if you have them.

- Bespoke half day training session for your staff on your chosen subject (maximum 12 people, delivered on your site, at your time and including certificate of attendance) – add £20/per month
- Bespoke Full day training session for your staff on your chosen subject (maximum 12 people, delivered on your site including certificate of attendance) – add £30/per month
- Add some additional visit days to your scheme, you choose the venue & subject you want us to work on. – add £25/month/visit

- PAT testing for your electrical equipment; we can plan, test and carry out annual re-tests for you as part of the package allowing you to forget about it! Ask for details of the additional costs for this service
- Producing & maintaining fire risk assessment for your site including annual fire audit checking & servicing of your w equipment - £POA
- Lift truck training – we will provide fully accredited RTITB training, certification & lifelong refresher training for your Lift truck operators for the duration of the scheme, so that their training & certification is always current – add £10/month/driver.
- As above for IPAF & PASMA training
- IOSH working & managing safely courses – these excellent courses can be expensive, so why not plan them in & spread the cost. They will be delivered on your site at a time to suit you during any year of your scheme. This allows you to spread the cost over the year and plan the training to suit peaks and troughs in your workload. Price will depend on your needs.
- Increase your level of access to your consultant via email or phone. If you feel you need greater access to your consultant to discuss issues, but don't need face to face visits. The cost will depend on what your requirements are.
